

CBP Partners - What to expect video (S)

Hello! Dr. _____ here from _____.

I'm really excited you've decided to put your health first by booking an appointment with us.

In this video, we are going to discuss what to expect from your first visit.

To get the most out of this consultation, address all areas of frustration you currently have, and finally, get you the results you're looking for...

... make sure to fill in the paperwork we have sent you via email or please come to your appointment at least 15 minutes early to get all the necessary paperwork out of the way...

Once the paperwork is complete, I will invite you back to my office where I will conduct a detailed history and physical examination.

In certain acute cases, we may perform some therapies to provide pain relief. Otherwise, we will then schedule you for your next visit, where we'll go through the report of findings.

... And because we map out a personal plan to finally achieve your wellness goals...we ask that you respect our time and we'll absolutely respect yours...

...So please confirm your appointment via text when our assistants do reach out, and let us know if you're not coming in at least 24 hours before your appointment.

I hope this video helps you with what to expect on your first visit.

See you soon!
